Give employees a safety net

Medical Bill Saver gives employees a place to turn when faced with unplanned medical or dental expenses.

Our experienced negotiators use fee benchmarking databases to help reduce non-covered medical and dental bills over \$400, regardless of insurance or benefit status. They also use critical pricing trend information, including provider specialty, procedure type and geographic region to help in the negotiation process, often resulting in significant savings.

Our experts will:

- Contact doctors, dentists, hospitals, surgery centers and other providers on employees' behalf to negotiate discounts on the balance due and/or payment plans
- Obtain provider signoff on payment terms and conditions
- Provide a Savings Results Statement summarizing the outcome
- Educate employees about the importance of visiting in-network providers and how they can maximize consumer-driven health plans
